“PRODUCTS THAT CARE”

For more than 40 years, JVD has been committed to offering protection and care. Care for you, your health and your comfort. But also protection for your environment. We create and manufacture products that make sense, for both you and our planet.

In 2024, JVD celebrates its 40th birthday, an occasion special to reaffirm our commitment to quality, innovation and sustainability. Since our creation, our mission has always been to invent, design and manufacture products that take care of you, your employees, your customers and our communities.

For us, the concept of caring goes well beyond products. It also includes our commitment to the environment. Last year we were honoured for these efforts with the achievement of the Ecovadis Gold label, a recognition of our commitment to eco-design. This distinction reinforces our pride for the path we have travelled over the years.

We strive every day to reduce our footprint environmental, while continuing to imagine products of tomorrow, designed to last.

JVD. Products that care

VISIT OUR WEBPAGE

THE FRENCH KNOW-HOW

Based in Nantes, in the west of France, JVD is the leading designer and manufacturer of hygiene and hotel equipment and solutions. Backed by our unique know-how, our company has now expanded into more than 100 countries around the world.

COMMITTED TO YOU AND THE PLANET

JVD is dedicated to the idea of transmission, and our teams make it a point of honour to work hard each day towards an ecological transition which looks out for everyone's well-being.

Which is why, in an era where planned obsolescence has become the norm, we are committed to designing sustainable products for our clients.

JVD takes pride in considering sustainability elements such as energy efficiency and ease of part replacement in our product design and development phase to ensure our hotel customers can contribute to our sustainability drive with the continued usage of JVD products.

Key Initiatives for transition to sustainability include using unbleached natural cardboards with no color printing and using only recyclable or biodegradable materials in all packaging.

We believe in the role we have to play in our shared future. So, it is only natural that we see eco-responsibility as one of the key pillars of our strategy today.

LIVING SPACE

A photograph of a living space. In the foreground, a wooden desk with a black metal frame holds a desk lamp and some papers. A green metal chair with a slatted back is positioned in front of the desk. To the right, a small black table holds a brown leather bag. A large window with a view of a city is in the background. The floor is made of light-colored wood. A black trash can is on the floor near the desk. A patterned rug is partially visible on the right. The text 'LIVING SPACE' is overlaid in large white letters.
